The Minerals Management Service (MMS) Royalty Management Program

(RMP) is requesting the continuation of a collection of information codified at 30 CFR 230. The purpose of this regulation is to codify the Department of the Interior interpretation and application of Section 10, of the Outer Continental Shelf Lands Act (OCSLA), 43 U.S.C. 1339, incorporating policies and decisions, and administrative practices. This regulation also clarifies the information required from lease holders requesting a royalty refund or credit from Section 10 OCS leases.

For production months prior to August 1996, no person may recover an excess royalty payment unless a request for refund or credit is made in accordance with regulations at 30 CFR 230.453. Recovery of overpayments for production months after August 1996 are not subject to the requirements of 30 CFR 230, per the Federal Oil and Gas Royalty Simplification and Fairness Act of 1996. To ensure consideration of a refund request, the regulations at 30 CFR 230.453 stipulate that:

- The request must be in writing. An oral request would not be acceptable.
 - The MMS-established payor code must be provided to ensure that the request is made by the person who has a legal right to a refund or credit.
 - The leases involved and the sales months in which the excess payments occurred must be identified to enable MMS to trace the overpayment amount to the original submission on Form MMS-2014, Report of Sales and Royalty Remittance.
 - The amount of the excess payment must be stated. In some situations it may not be possible to determine an exact amount, for example, if there is a pending administrative or judicial proceeding that will establish the amount. In such situations it would be acceptable to describe the class of payments that may be excess.
 - The specific reason why a refund or credit is due must be provided.
 - The person submitting the request must certify that, to the best of their knowledge, the information in the request is accurate and complete.
 - MMS must receive the request for refund or credit within 2 years of the date the excess payment was received.
- Requests for refunds are received by RMP where they are scanned for timeliness. If the original payment was made more than 2 years previous to the refund request, the request is denied. If the request is timely, it is forwarded to an MMS contractor for further review to see that all required information is included. The contractor prepares a list of overpayments that MMS proposes to refund. The list is returned to MMS and is then forwarded to the Congress.
